Carte des Couleurs

Ce nuancier présente nos tissus photographiés en haute résolution, puis assortis au mieux. Il s'agit de la représentation la plus fidèle possible des couleurs dans un livre, sans avoir à voir les produits en vrai.

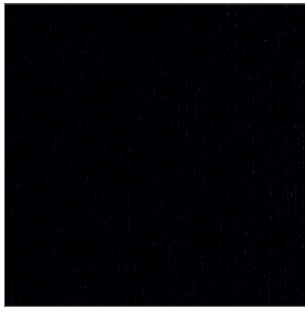

Cependant, de légères variations de couleurs peuvent exister entre les teintes, et nous déclinons toute responsabilité en cas de divergence. Nous espérons que vous comprendrez et que cet outil vous sera utile dans votre travail quotidien.

Si vous consultez ce nuancier à l'écran, les couleurs seront beaucoup moins fidèles en raison de la façon dont les écrans affichent les couleurs.

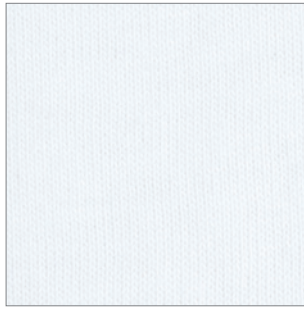

Les références PMS (Pantone Matching System) indiquées sous chaque couleur sont les plus proches disponibles.
